CREAM OF NEWS.

More Than Two Miles.

Mention was made in a recent issue of the trouble R. C. Pace was having with a law prohibiting the sale of liquor within two miles of Spring Hill colored Baptist church, near Herndon. Some of the citizens opposed to the sale of liquor measured the distance and made it a little less than two miles and petitioned Judge Winfree to revoke the license issued to Pace. Mr. Pace secured an attorney and had the distance measured for himself and according to his measurement it is 75 yards more than two miles. At present Mr. Pace is on top in the fight and unless the citizens push the matter into the courts nothing further will be done about it.

"Uncle Rock" Gone to Frankfort.

Deputy Sheriff Henry McKinley of Trigg county left Gracely last Monday with Miles G. Radford and "Uncle Rock" is now in the penitentiary at Frankfort. He goes to serve out a term of 21 years for killing a man named Johnson in this county several years ago. The prisoner is now past 50 years of age and will of course never live to return. His attorney made a long and faithful fight for his liberty, but he was twice convicted and the Court of Appeals finally destroyed his last hope.

Off for Frankfort.

Judge J. I. Landes, attorney for the O. V., and Mr. Henry J. Siles, attorney for the L. & N., left for Frankfort this week to attend to the O. V. bond case. Mr. Siles represents the county also under an order of the Court of Claims. Both sides will endeavor to get the case advanced on the docket and disposed of at once.

THE COURT OF CLAIMS.

The More Important Business Transacted.

The Court of Claims has been in session since Monday. Several important matters have been attended to. The anti-railroad men refused to pay the bill for printing the O. V. bonds and that matter went over till October.

By a vote of 18 to 16 the L. & N. attorney was made a special attorney for the county to carry the O. V. bond case through the Court of Appeals.

H. W. Breathitt reported \$970.40 delinquent tax collected. He was allowed 30 per cent and the order continued.

Sheriff W. M. West was made receiver for the county and Ex-Sheriff Jno. Boyd and other county officers were ordered to turn over to him all money in their hands belonging to the county.

The bridge committee reported repairs on a bridge across Little River costing \$305. The committee was continued.

Esqs. Tinsley, Younglove and Davis were appointed a committee to determine the best system of roads for the county.

The collection of the delinquent poll tax for 1888 was placed in the hands of the constables of the county.

T. G. Hanbery was retained as deputy tax collector till October.

John Boyd and W. M. West were allowed \$25 each for services in attending the last Common Pleas Court.

There being a \$27,000 surplus on hand, which has accumulated by the refusal of bond holders to surrender the bonds called in, the question came up what to do with this money. The outstanding bonds, 117 in number, are not due until 1897 and they cannot be called in without the consent of the holders. In view of this fact the Court ordered the sheriff to offer a premium of 5 per cent for them. All coupons on bonds called in to be paid up in July. This was about the best course to pursue.

The total appropriations of the October and April terms were about \$14,000.

F. W. Biggerstaff was elected House Keeper vice D. T. Brown. Salary \$40 a month.

Salaries of County officers fixed as follows: Judge \$800, Attorney \$600, Common Pleas judge (one half) \$600, School Superintendent \$1,250.

THE TAX LEVY.

After much wrangling the levy was laid at 7 cents for county purposes and 12 cents for interest on bonds and no levy for redeeming bonds. This makes the rate 19 cents instead of 37½ cents as last year. The State and county rate is only 6½ cents. Poll tax \$2.00.

Jno. W. Payne was allowed \$50 for settling with the sheriff.

The question of building a work-house jointly with the city was up, discussed and referred to a committee.

Adjournment yesterday afternoon.

Impure Ice.

As the lake ice crop is very short and of inferior quality and doubtless gathered from bodies of polluted water, would it not be well for us to give more attention than usual to the question of the purity of this article. Only within a few years has the fact come to the general knowledge of the public that a great deal of ice in common use is practically poisonous. There was a wild, popular delusion long entertained that no matter how bad the water might be when it was once frozen it must be purified. The theory was very simple that freezing was a purifying process and that ice itself might be accepted as the emblem of purity.

The fact is that the worst poisons which we encounter in our water supplies are preserved by freezing, and turned loose into the goblet from which we are expected to quaff our most refreshing beverage. There is nothing that needs inspection more than ice—no even milk.

The ice carries the peculiar dangers that are supposed to be attendant upon poverty into the homes of those supplied with all that makes life pleasing and seemingly secure. The rich as well as the poor sip poison in their ice water. Cities on our great lakes are much exposed to like evils. There has been a typhoid fever visitation in many of the western and northern States during the past winter and it becomes every housekeeper to make personal investigation of the ice question.

Whose heart is full, his mouth runneth over. Whosoever has used Warner's Log Cabin Plasters, has heart filled with gratitude and he proclaims to the world its superiority to all other plasters. Try it. Cheap and best.

THE SICK.

Mrs. M. N. Roach is again in a very critical condition.

Dr. E. R. Cook is now on the road to recovery.

Mrs. W. S. Davidson is nearing convalescence, after a severe spell of illness.

Mr. Jno. N. Mills has been quite sick for several days.

Mr. Thomas W. Rodman was laid up several days this week with a severe abscess in his throat.

Mr. Bailey Richards is up from his hard attack of rheumatism.

The favorable reports from H. Clay McCord's condition continue to come in and the probabilities now are that he will recover. He has had a hard pull for life since March 2 and his friends will rejoice to see him win the fight.

THE NEW SUPERINTENDENT.

Sketch of Dr. B. W. Stone Who Will Succeed Dr. Rodman To-morrow.

Barton Warren Stone was born at Fulton, Mo., Jan. 17, 1815. His parents were a few years before his birth. His father, Judge John H. Stone, was judge of the Ninth Judicial District of Missouri for twenty years. Dr. Stone acquired his literary education at Westminster College, at Fulton, where he received the degrees of A. B. and A. M. Upon reaching manhood, he came to Kentucky and took his first course of lectures in the study of medicine at the University of Louisville, and in 1838 graduated from the Kentucky School of Medicine, in the same city. For one year he was resident graduate at the City Hospital, Louisville, and two weeks after leaving the Hospital received the appointment of assistant physician of the Western Kentucky Lunatic Asylum, succeeding Dr. Hugh McNary, now of Princeton, Ky. He began his duties June 30, 1839, and has held the position ever since. Dr. Stone has been a valuable assistant to Dr. Rodman and will prove a worthy successor to him. Of late years much of the professional work in the conduct of the Asylum has been entrusted to him. He is recognized everywhere as a thoroughly informed and well equipped physician, who keeps fully abreast of the times in all things pertaining to the profession, and he has justly earned the promotion that has come to him in the prime of life. Personally he is a genial gentleman, popular with all, and his literary tastes and well-stored mind have made him a general favorite in the most cultivated circles of society. He is at present secretary of the County Medical Society and Vice-President of the State Medical Association. He is a prominent member of the Ninth Street Presbyterian church and a Mason of high degree. He is well supplied with this world's goods, still on the shady side of the fortune, handsome and unmarried.

Dr. Howe H. Wallace.

Dr. Howe H. Wallace, a Hopkinsville boy but for the last several years a resident of Newmarket, has been selected by the incoming Superintendent as second assistant physician of the W. K. L. A. Dr. B. F. Eager being advanced to the position of first assistant. Dr. Wallace is a young man of about 27 years of age, with five or six years of practice. He is a gentleman of high character and excellent moral standing and is particularly well qualified to fill the place to which he has been appointed. He will enter upon his duties next Wednesday.

Walton Forgy, the rising young attorney, happened to a serious and rather peculiar accident Wednesday. While out riding in a buggy he dropped a lighted cigar stump in his lap and did not detect it until a large hole had been burned through both the lap cover and his pants and the unseasonable heat reminded him that something was wrong. For awhile a general conflagration seemed imminent, but the fire was finally extinguished. The pants, however, were a total wreck.

Frank W. Buckner, postal clerk on this division of the L. & N. has been notified that his place is wanted for Robert Coleman, a Republican of Earlinton, Ky. Such are the mutations of official life in a country full of politics.

The Court of Claims made a mistake in making a wholesale reduction of the tax rate. A gradual retirement of the bonds would have been much the wiser plan.
